

Notice:

Razor Reach is designed so that your razor handle will be **held firmly when downward pressure is applied**, as in shaving. You may **notice movement** when downward pressure is not applied.

As with any razor, the razor reach is not intended for side to side (horizontal) shaving motions. The razor reach should be used with the same precautions you utilize with your present razor.

Buyer assumes all risk for safety and use not in accordance with directions.

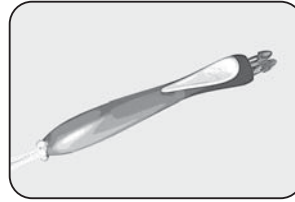

* 2 Arms available with Razor Reach XR model.

Additional 6" Razor Reach Arms also sold separately. Visit www.razorreach.com to purchase.
